

# HYBRID & HYFLEX LEARNING AT NOVA

## Synchronous & Asynchronous

## Fully Synchronous

## HYBRID COMBINATIONS

Look for the letter "Y" in the section code ex. ART-100-02YA

Hybrid courses can be a combination of live meetings (either in-person or via Zoom) and independent online coursework.

Hybrids that are half online (asynchronous) will have fewer scheduled meeting times than a traditional classroom course, but will require students to review course materials, participate in discussions and complete assignments via CANVAS.

Hybrids that are fully synchronous have scheduled days and times for in-person and Zoom meetings. Students are expected to attend all scheduled meetings.

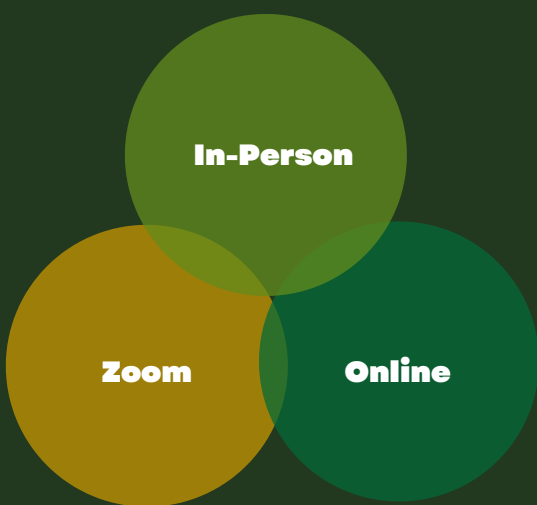

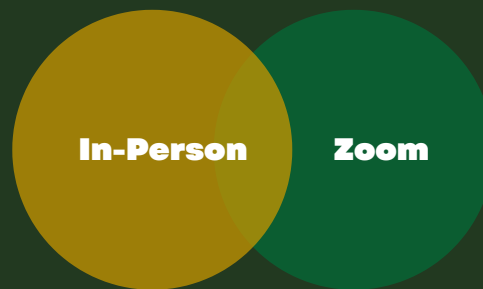

Be sure to look at the location in SIS to determine if the class meets in-person, on Zoom, or both.

## HYFLEX

Look for the letter "X" in the section code ex. ART-100-02XA

Hyflex courses are where students may switch between in-person and live Zoom experiences running simultaneously.

Students choose to attend as many or as few in-person sessions as they wish.

## HYBRID-HYFLEX

Look for the letters "X" and "Y" in the section code ex. ART-100-2XYA

For the live meetings of this class, students switch between in-person and live Zoom experiences.

Because this course is also a hybrid, there are fewer scheduled meeting times, but it will require students to review course materials, participate in discussions and complete assignments via CANVAS, independently, on their own time.

**To Search for Hybrid or Hyflex Courses on the web schedule of classes:**

**Class Mode**

Learn at home on zoom

Learn on campus in person

Learn at home on your own with NOVA Online

Hybrid Courses: A blend of in-person, Zoom, and/or online learning

Hybrid Flexible: option of in-person, Zoom, or both
